

STOP THE NYC FLAVOR BAN!

The New York City Council will soon consider an ordinance that would **BAN** the sale of flavored vaping products. If passed, this would make it harder for adult smokers to switch and shut down many vape shops New York City.

YOU CAN HELP STOP THIS!

(1) Send an E-Mail

Visit SaveFlavors.org to send a pre-written message to NYC lawmakers.

It takes just one minute. If you have time, please add a couple sentences with your own vaping story.

(2) Call the Members of the NYC Health Committee

Call the below members and leave a message respectfully asking each member to **OPPOSE** Ordinance 3592, which would ban the sale of flavored vaping products. If flavored vaping products have improved your life, explain how.

Councilman Mark Levine	(212) 788-7007
Councilman Keith Powers	(212) 788-7393
Councilman Dr. Mathieu Eugene	(718) 788-7352
Councilwoman Alicka Ampry-Samuel	(212) 788-7387
Councilwoman Inez Barron	(212) 788-6957

(3) Attend the NO FLAVOR BAN Rally on January 30th

We will be holding a rally and press conference from 11:30 am to 1:00 pm on January 30th on the steps of City Hall (at the center of City Hall Park). We need a big showing of vapers! Many e-cigarette supporters will then be giving testimony at a public hearing that will take place inside City Hall at 1:00 PM. If you can, attend both!

Please continue calling after January 30th, as a final vote will not take place until February or March.
